It qualifies you to practise the following regulated professions:
- Technical public works engineer.
- Civil engineer (after obtaining the master’s degree in Civil Engineering). This bachelor’s degree and the master’s degree in Civil Engineering (professional track) make up an integrated academic programme.

High levels of academic performance and continuous research are essential to the sustainable development of our society.

UPC
BACHELOR’S DEGREE IN PUBLIC WORKS ENGINEERING

The planning and control of civil engineering projects requires professionals with technical expertise and management skills. Graduates of the bachelor’s degree in Public Work Engineering work to find solutions to complex engineering and technological problems in the implementation of infrastructure projects. Innovation and the search for creative and environmentally friendly solutions are characteristic of construction engineers.

Which subjects will you choose?
The bachelor’s degree consists of four academic years.

First year (initial stage)
You will receive training in basic and applied sciences.

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mathematics Fundamentals</td>
<td>6</td>
</tr>
<tr>
<td>Linear Algebra</td>
<td>6</td>
</tr>
<tr>
<td>Chemistry of Materials</td>
<td>7.5</td>
</tr>
<tr>
<td>Applied Geology</td>
<td>6</td>
</tr>
<tr>
<td>Mechanics</td>
<td>5</td>
</tr>
<tr>
<td>Applied Physics</td>
<td>6</td>
</tr>
<tr>
<td>Business and Construction Law</td>
<td>5</td>
</tr>
<tr>
<td>Graphic Design</td>
<td>7.5</td>
</tr>
</tbody>
</table>

Second year
You will take subjects on engineering tools and introduction to technology.

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Geometrics and Surveying</td>
<td>7.5</td>
</tr>
<tr>
<td>Descriptive Statistics</td>
<td>7.5</td>
</tr>
<tr>
<td>Differential Equations</td>
<td>4.5</td>
</tr>
<tr>
<td>Construction Materials</td>
<td>6</td>
</tr>
<tr>
<td>Hydraulics of pipes and lines</td>
<td>9</td>
</tr>
<tr>
<td>Strength of Materials</td>
<td>6</td>
</tr>
<tr>
<td>Numerical Methods and Informatics</td>
<td>1.5</td>
</tr>
<tr>
<td>Representation Techniques</td>
<td>9</td>
</tr>
<tr>
<td>Construction Methods and Electrical Engineering</td>
<td>9</td>
</tr>
</tbody>
</table>

Third and fourth years
The subjects focus on structures and foundations, water technology, transport infrastructure and urbanism, depending on the pathway you choose.

Your bachelor’s degree
If you are a person with high standards, logical reasoning skills and a solid grounding in maths and physics, this bachelor’s degree will allow you to adapt to working environments that require technical knowledge and the ability to make decisions and solve problems. Once you finish the bachelor’s degree, you will be able to seek admission to the master’s degree in Civil Engineering (professional track).

Professional opportunities
Thanks to your technical and organisational expertise, as a graduate of the bachelor’s degree in Public Works Engineering you will be qualified for employment in infrastructure, engineering and design companies, consultancy firms and laboratories, the service sector and public administration, and for self-employment.

Complementary activities
You will have the opportunity to participate in conferences and seminars by leading specialists and to present your work for awards promoted jointly with leading international companies.

Languages
You will take subjects taught entirely in English, which will, together with the B2 English level that you will have attained by the end of the bachelor’s degree, help you to perform effectively in an international context.

Work placement
Through the Barcelona School of Civil Engineering you will go on work placement at national and international companies and institutions as part of the curriculum.

Go international!
We offer more than 120 mobility places in 20 countries. You can take subjects or carry out your bachelor’s thesis.

Double degrees
As a student of the bachelor’s degree in Public Works Engineering you may choose to take a double degree with a top international institution. You will graduate with a degree from the Universitat Politècnica de Catalunya and a degree from the partner university.

Supervision
We offer academic supervision and tutoring for all bachelor’s degrees, which involves continuous monitoring of students’ academic records.

International recognition
Every year, the School’s teaching staff receive national and international prizes and awards for their teaching and research. In both the QS World University Rankings and the National Taiwan University (NTU) Ranking, the UPC is the top Spanish university in the field of Civil Engineering and 23rd and 52nd in the world, respectively.
