1) Academic Board will review and guarantee the equivalence of elective modules with MMNE study plan compulsory courses.

2) Master Thesis defense will follow the requirements and regulations of the Thesis Institution.

Note 1: UPC student at Swansea: 20 ECTS of Compulsory Modules (Q3) + 10 ECTS of Elective modules (Q3 and Q4) + 30 ECTS of Research dissertation (Q3 and Q4)

Note 2: "Domain decomposition" compulsory because there is not a similar Module for Swansea students during Q2, and it is a compulsory module in MMNE study plan.

Note 3: The choice of the 2 Elective modules in Q4 must be approved by the Academic Board and coordinated with the choice of the 3 Elective modules in Q2. Examples: A student who did not take "Fluid-Structure Interaction" or "Computational Fluid Dynamics" in Q2 must take "Finite Elements in Fluids" in Q4. A student who did not take "Nonlinear Continuum Mechanics" or "Computational Plasticity" in Q2 must take "Computational Solid Mechanics" in Q4.
