

CLASS SCHEDULE

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
8:00					
9:00	Impacts, conflicts & risks: Present & future conditions (9:00-11:00)	Coastal sustainability defence & realignment (9:00-10:30)	Coastal processes & dynamics (9:00-12:00)	Coastal sustainability defence & realignment (9:00-10:30)	
10:00		Design of coastal & harbour structures: Deterministic & probabilistic impacts (10:30-11:00)		Design of coastal & harbour structures: Deterministic & probabilistic impacts (10:30-11:00)	
11:00	Coastal zone planning & management (11:30-14:00)				Meteo-oceanographic time series: Time & frequency analyses (11:00-13:00)
12:00					
13:00					
14:00					
15:00			Coastal multidisciplinary project: Sustainable engineering in the coastal zone (15:00-19:00)		
16:00		Port management & exploitation (16:00-18:00)			
17:00					
18:00					
19:00					

Start of courses: February 3rd 2020
