Instal·lació Cygwin/X

Passos a realitzar per a poder instal·lar el Cygwin/X.

Primer de tot ens hem de descarregar el client de la pàgina web del cygwin.

URL: http://x.cygwin.com/

Un cop estiguem a la pàgina, ens hem de desplaçar fins a l'apartat de <u>Downloading and</u> <u>Installing</u> i clicar on mostra la següent imatge:

Downloading and Installing

Cygwin/X is installed via Cygwin's <u>setup.exe</u> and the installation process is documented in the <u>Cygwin/X User's Guide</u>. Whether or not you already have Cygwin installed, you can add Cygwin/X to your installation by downloading the latest <u>setup.exe</u>, running setup, and selecting the 'xinit' package from the 'X11' category.

Using Cygwin/X is documented in a step-by-step manner, with lots of pictures and examples, in the <u>Cygwin/X User's Guide</u>. Please notice, however, that Cygwin/X contains many general-purpose programs, libraries, and functions that are part of all X distributions. It is therefore beyond the scope of the <u>Cygwin/X User's Guide</u> to document all of these X Window System components. To find documentation, for example, for *setxkbmap* one should consult the generic X documentation such as the <u>setxkbmap(1) manual page</u>. You could always, of course, do a <u>Google search</u> for *setxkbmap*, which finds the manual page mentioned above.

Es descarregarà el client al vostre equip. Un cop hagi acabat la descàrrega, clicar sobre l'icone per començar la instal·lació:

A continuació es descriuran els passos per a realitzar la instal·lació:

Seleccionar Install from Internet i clicar Endavant.

Roo	t Directory
C:\	cygwin Browse
nsta	all For
e	All Users (RECOMMENDED)
	Cygwin will be available to all users of the system.
0	hust Me
	Cygwin will still be available to all users, but Desktop Icons, Cygwin Menu Entries, and important Installer information are only available to the current user. Only select this if you lack Administrator privileges or if you have specific needs.

En aquesta imatge s'ha de seleccionar si volem que s'instal·li a tots els usuaris de l'equip o només en el nostre. El directori arrel, es deixa per defecte, ens cas contrari, modificar al vostre gust

Un cop ho haguem decidit, clicar a Endavant.
