A large iceberg floating in the ocean. The tip of the iceberg is above the water, while the much larger, jagged base is submerged. A blue arrow points from the right towards the tip of the iceberg.

# Tools and guidelines to organize references and create citations

zotero

The screenshot shows a webpage titled "How to cite and create bibliographies". At the top, there is a navigation breadcrumb: "LIBRARY TECHNOLOGY > GUIDES > HOW TO CITE AND CREATE BIBLIOGRAPHIES > Home". Below this is a search bar with the text "Search this guide" and a "Search" button. A blue sidebar on the left contains a menu with the following items: "Home", "Basic concepts", "How to cite in-text", "How to reference each document", "How to prepare the bibliography", "Reference managers", and "Quick quote tools". The main content area features a blue line-art illustration of a library with books, a person reading, a person writing, and a graduation cap. Below the illustration, the text reads: "Everything you need to know about how to cite, create and prepare bibliographies in your work." This is followed by a section titled "This bibliography will be useful for:" with a bulleted list: "cite documents", "to prepare a bibliography", "choose a reference management program to create your own library with your bibliographic references", and "choose an online quick citation tool to produce references quickly and on time". At the bottom, it says "Do you have [any comments](#) ? Thank you for letting us know." In the bottom left corner of the screenshot, there is a small red box with the text "COM CITAR O DECLARAR L'ÚS DE LA IA" and a small blue robot icon.
